Work Experience

Full Stack Developer (Freelance)

Self-Employed

Jan 2026 - Present

Remote

- **Situation:** Need to deliver multiple production-grade applications quickly. **Action:** Built & deployed **4+ full-stack applications** using Spring Boot, React, PostgreSQL, Docker on Render/Vercel. **Result:** All live in production, cut deployment time **50%** via CI/CD
- **Situation:** Real-time communication features required. **Action:** Integrated RESTful APIs, WebSocket channels, third-party services. **Result:** **Sub-2s response times**, stable concurrent connections in production

Open Source Developer

GitHub

2025 - Present

Remote

- **Situation:** Portfolio building, community contribution. **Action:** Maintained **5+ public repositories** with clean architecture, documentation, Git best practices. **Result:** **100+ commits**, high code quality
- **Situation:** Need AI tutor for CS education. **Action:** Built AI chatbot using **Groq API (Llama)** with Vercel serverless backend. **Result:** Published product handling **50+ concurrent sessions**

Projects

CivilianShield — AI-Powered Civilian Safety Platform

Spring Boot, REST API, WebSocket, React, Docker, Render

Live — GitHub

- **Situation:** Emergency responders need real-time incident alerts. **Task:** Build full-stack platform for SOS reporting & incident mapping. **Action:** Architected Spring Boot + React + WebSocket system, **integrated AI threat detection** via Groq API, containerized Docker. **Result:** Live in production with **5+ REST endpoints**, **3 major iterations**, serving real users

Skill Gap Analyzer — AI Career Intelligence Tool

React, Node.js, Vercel

Live — GitHub

- **Situation:** Job seekers struggle to identify skill gaps for target roles. **Task:** Analyze resume vs job descriptions, output actionable insights. **Action:** Built React frontend + Node.js backend, **leveraged Groq LLM** for fast inference. **Result:** **Skill report generated in under 3 seconds**, active users on analyzer.vasutech.online

CS AI Agent — Intelligent Customer Support Chatbot

Groq API, React, Vercel Serverless

Live — GitHub

- **Situation:** Need contextual AI tutor for CS students. **Task:** Build production AI agent with memory & custom personas. **Action:** Used **Groq API** for inference, React frontend, Vercel serverless deployment. **Result:** **Shipped concept-to-live in under 2 weeks**, **50+ concurrent sessions**, **sub-2s responses**
