PROFESSIONAL SUMMARY

Motivated Software Engineering student with hands-on experience in full-stack development, AI-powered applications, and cloud deployment. Skilled in Java, Spring Boot, React, SQL, Docker, and GCP basics, with interest in backend systems and modern software development. Passionate about learning new technologies, building real-world projects, and solving practical problems through software.

EDUCATION

Bachelor of Technology — Computer Science Engineering Parul University, Vadodara, Gujarat CGPA: 6.97/ 10	2023 – 2027
Intermediate (MPC) — Narayana Junior College, Kakinada, AP 826/1000 Grade A	Mar 2023
SSC — Narayana EM School, Kakinada, AP 557/600 92.83%	Jun 2021

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML/CSS
Frameworks & Libraries: Spring Boot, React.js, Node.js, Express.js
Databases: PostgreSQL, MySQL, MongoDB
AI & Tools: Groq API, Scikit-learn, Machine Learning, RESTful APIs, WebSocket, Docker, GitHub Actions
Cloud & DevOps: Vercel, Render, GCP (Cloud Run), GitHub Actions, Cloud Deployment
Tools & Methodology: Git, Version Control, IntelliJ IDEA, Postman
Mathematics: Linear Algebra, Probability & Statistics, Discrete Mathematics, Calculus, DSA
Languages (Human): English, Hindi, Telugu

PROJECTS

CivilianShield — AI-Powered Civilian Safety Platform <i>Spring Boot · REST API · H2 · WebSocket · React</i> - Ideated, architected, and shipped a full-stack civilian safety platform from scratch; live in production with 5+ REST API endpoints serving real users - Built SOS alert system, incident mapping, and emergency contact module — iterated across 3 major versions to reach final stable release - Integrated an AI-based threat detection pipeline to automate emergency alert handling and improve response efficiency.	Live Demo GitHub
Skill Gap Analyzer — AI Career Intelligence Tool <i>React · Node.js · Vercel</i> - Conceptualized, built, and launched an AI-powered career tool end-to-end; analyzes resumes against job descriptions and outputs a prioritized skill gap report in under 3 seconds - Leveraged Groq LLM for rapid inference; streamlined resume and job description analysis using AI-powered insights	Live Demo GitHub
CS AI Agent — Intelligent Customer Support Chatbot <i>Groq API · React · Vercel Serverless</i> - Engineered a production-grade AI agent with context memory and custom personas; went from concept to live product in under 2 weeks - Solved CORS and serverless deployment challenges independently; maintains active user sessions with sub-2-second response times	Live Demo GitHub
Context-Enhanced Messaging Platform — AI Chat Summarizer <i>Spring Boot · React · PostgreSQL · Docker · Render</i> - Built a full-stack messaging application with AI-powered conversation summarization; containerized with Docker and deployed to cloud with zero-downtime setup - Developed a scalable REST API with 10+ endpoints; implemented real-time messaging via Spring WebSocket handling concurrent connections	Live Demo GitHub

WORK EXPERIENCE

Full Stack Developer (Freelance) Self-Employed Remote <i>Jan 2026 – Present</i> - Built and deployed 4+ full-stack web applications using Spring Boot, React, PostgreSQL, and Docker on Render and Vercel platforms. - Integrated RESTful APIs, WebSocket channels, third-party services into Spring Boot microservices with CI/CD pipelines; cut deployment time by 50% - Developed an AI-powered chat application using Groq API and real-time WebSocket communication, containerized with Docker for cloud deployment.	
Open Source Developer GitHub Remote <i>2025 – Present</i> - Maintained 5+ public repositories with clean code structure, comprehensive documentation, and Git version control best practices; accumulated 100+ commits across projects - Built and published an AI-powered CS tutor chatbot using Groq API (Llama model) with Vercel serverless backend; handles 50+ concurrent sessions with secure API key management	

CERTIFICATIONS & TRAINING

- HackerRank — Java (Basic) Certified - HackerRank — SQL (Basic) Certified - JPMorgan Chase — Advanced Software Engineering Job Simulation Forage (Jan 2025) - Deloitte — Data Analytics Job Simulation Forage (Dec 2024) - NPTEL — Computer Networks And Internet Protocol (IIT Kharagpur, 2025) - Infosys Springboard — Programming Fundamentals using Pvthon - Part 1 (2026) - Kaggle · Intro to Machine Learning (Jun 2026)	Signed by: srivasu
